

ANOTHER WHARF FOR HILO WILL BE RECOMMENDED

Chairman Forbes Says \$200,000 Pier 600 Feet Long is Needed in Kulo Bay

Construction of a \$200,000 concrete wharf in Kulo bay, Hilo, will be recommended to the board of harbor commissioners at its meeting tomorrow afternoon at 1:30, by Charles R. Forbes, superintendent of public works and chairman of the board. Forbes this morning in his return from Hilo confirmed the following message received by the Star-Bulletin late yesterday from its Hilo correspondent:

"Superintendent Forbes approves of construction of new concrete wharf in Kulo bay to accommodate steamers of the Inter-Island."

When asked by the Star-Bulletin to confirm this message, Forbes said:

"I will recommend tomorrow to the board of harbor commissioners the construction of a new concrete wharf for Kulo bay, situated in the vicinity of the present Kulo wharf, about 500 feet from it."

"The new wharf, which in my opinion is necessary there, will be built on a different angle from Kulo wharf, so that both sides can be used by steamers. Only one side of the new Kulo wharf is available to vessels."

"Another recommendation I intend making to the harbor board is to dredge Kulo bay so that vessels of larger draft, such as the Great Northern and Matsonia, can maneuver more easily than at present."

"The proposed wharf will be about 600 feet by 100 wide, with a roof over its entire length. It will be built of concrete, and will have the latest and most efficient equipment for handling sugar and other kinds of freight. I shall recommend that the board ask the next session of the legislature, meeting in February, for an appropriation of \$200,000 to cover the cost."

The superintendent added that borings will be started at once on the site of the proposed wharf, to determine whether there is any obstacle to erecting it there. According to Commissioner C. J. McCarthy of the harbor board, there is a great deal of blue rock at this point in Kulo bay, which may make excavation so costly as to render it almost prohibitive. Borings will show exactly what difficulties there are, if any, to overcome.

INITIAL SUSPENDED SENTENCE GIVEN IN JUVENILE TRIBUNAL

"Please, judge, you give me just one more chance. I'm too small to be sent to that school. I'm a good boy, judge; you try me."

This tearful plea was poured into the ear of Acting Juvenile Judge C. W. Ashford last Saturday by a tiny Hawaiian boy whose head came barely above the big flat-top desk at which the judge sat.

ADVERSE NEWS TENDS TO WEAKEN STOCK MARKET

Lower prices for sugar and adverse strike news were reflected in the local stock market today. News of the definite calling of a strike was not received until after the session had ended. Between boards Olan sold at \$17.50 and Olan at \$18.17 1/2. McBryde sold down an eighth at \$11.75. At the session Kwa was \$35, Pioneer \$42.50 and Telephone \$19.75. Sales between boards were \$35 shares and at the session 215.

Of the unlisted stocks there were small sales, 400 Mineral Products at 95 cents and 80 shares of Mountain King at 75 cents. Oil was \$30@32.10, Engels \$24@25.50 and Tipperary 74 1/2 cents.

Directly after the appearance of the Star-Bulletin's extra edition announcing the settling of time for railroad men to walk out several brokers said they thought the adverse news had already been pretty well discounted, but that it would probably have a still further depressing effect but that today they thought the latest developments would only tend to discourage.

PLAN TO EXTRADITE SAKAN, INDICTED ON CONSPIRACY CHARGE

Extradition papers by which it is hoped to bring Seishiro Sakan, indicted on a charge of criminal conspiracy, back to Honolulu, were to be sent to City Attorney A. M. Brown, now in San Francisco, on the Lurline today. Saka is to arrive in San Francisco this morning, and Sheriff Rose has called the police authorities of the coast city to hold him until further notice. Sakan was indicted with K. Hirata, the territory's claim being that they attempted to "beat" the receiver in whose custody certain goods belonging to them had been placed, and that they violated a restraining order to prevent them from disposing of the goods.

wallian boy whose head came barely above the big flat-top desk at which the judge sat. The youngster had been apprehended as a "snapping character," and he had a record, a very small one, in juvenile court. Judge Ashford said he thought he ought to go to the reform school.

"But I'm too small," pleaded the boy. "You try me again."

Judge Ashford looked at the youngster and noted his size. He was rather small to be put in a reform school. So the court rectified a lecture on future behavior and suspended sentence for 30 days.

"It's the first time we have ever had a suspended sentence in juvenile court," says A. Kalei Aona, and Aona has been with the court for many years.

A two-story hostelry mill, owned by Harry Smalley of Philadelphia, was destroyed by fire at a loss of \$40,000.

COMMITTEES OF BOURBONS WILL MEET TONIGHT

Governor Pinkham Has Been Asked to Attend, But May Be Prevented By Illness

Governor Pinkham has been invited to speak at a joint meeting of the Democratic territorial central committee and county committee to be held at 7:30 o'clock this evening in Phoenix hall, Fourth and Beretania streets.

It is not likely, however, that Governor Pinkham will be able to attend the meeting, as he is still confined to his home with a slight illness and was unable to go to his office in the capitol today. The object of the meeting is to call upon the several party leaders for their views as to what may be done in the coming campaign in the best interest of the local organization.

In the absence of Prof. W. A. Bryan, chairman of the central committee, W. H. McClellan, chairman of the county committee, will preside. Among the speakers are expected to be Lincoln L. McCandless, Democratic candidate for delegate to Congress; C. J. McCarthy, territorial treasurer; Bertram G. Rivenburgh, land commissioner; Allan Herbert, Richard H. Trent and G. J. Waller.

The meeting will be a strictly get-together affair in preparation for the big Bourbon rally and notification meeting to be held at Aiea Park at 7:30 o'clock on the evening of Saturday, September 3.

BATHES PIGS TWICE DAILY AND HE DOES IT IN A TUB

Spotless Town has been found. It is North Bergen, N. J.

Neighbors of Louis Tracassa of No. 675 Hillside Place complained to the Board of Health that he did not keep his five little pigs in "clean and sanitary condition."

"I give those pigs a bath every morning," he said, "and my wife bathes them every evening. What more do you want? Should I get up in the middle of the night to wash them again?"

"How do you bathe them?" was asked.

"In a tub," said Tracassa.

The Board of Health took the case under advisement.

SWEDEN RECEIVES APOLOGY

STOCKHOLM, Sweden (via London).—Commanders of the Russian submarines which torpedoed the German steamer Syria in Swedish waters and attempted to torpedo the German steamer Eibe in the same region, have been removed from their posts according to an announcement made by the Russian government in reply to Sweden's protest.

The Russian note expresses regret over the incidents and assures Sweden that Russia is anxious to avoid any act which might violate the neutrality of Sweden.

CHAMPIONS HERE FOR BIG WATER MEET ON HARBOR

(Continued from page one)

boys have been overwhelmed with invitations already, but will rest this afternoon and attend the big banquet at the Y. M. C. A. this evening.

"We are here to win," said Vollmer on the liner this morning. "We are all going to go after the records now on the books, and hope to see some new marks set here. We know that Duke is a champion, and I myself have plenty of faith in his ability to go, but if possible we are all going to make an effort to take the honors back to the East."

"It sure is fine to get back to Hawaii again," said Ludy Langer. "We had some great races here during the Carnival, and I am naturally anxious to secure revenge for my defeat in the 440-yard event. Honolulu people know how to entertain the visitors, and whether we win or lose, we will always be strong boosters for Hawaii."

Vollmer Touched
Herbert Vollmer will soon begin to believe that Hawaii is a home to him. Not satisfied with taking his first-class accommodations and retiring him to the steerage on the Wilhelmmina, one of the light-fingered gentry on board abstracted Vollmer's purse. Not satisfied with taking his first from San Francisco to New York.

Last evening Vollmer retired rather early and left his purse in his berth and upon awakening this morning looked for the wallet and found that it had mysteriously disappeared. A search was made throughout the steamer, but to date Vollmer has not recovered his valuables.

Champions Travel Steerage

Three world champions came to Hawaii in the steerage. Herbert Vollmer, Ludy Langer and Tedford Cann were among the prominent steerage passengers on the Wilhelmmina. The visitors had the best of third-class accommodations, and W. T. Rawlins, who returned by the same boat, was "up in the air."

The latter part of June Lorrin Andrews made reservations for three first-class passages for the champions. Again in July he called on the Matson people and asked if the bookings were all right. Two weeks ago he called on the Matson Navigation Company and asked if the reservations were O. K., and then, after all the arrangements the visitors were forced to take the steerage.

"That is fine advertising for Hawaii," said Rawlins. "We will make an effort to have the boys go back first-class, at any rate. Thomas Cook & Sons canceled the bookings, but we are at a loss to see why they should have interfered."

Despite the changed conditions, the boys stated that they enjoyed their trip and were glad to visit the Paradise of the Pacific.

SUBSIDIES FOR SHIP LINES THROUGH CANAL PROPOSED IN JAPAN

(Special Cable to Hawaii Hocho)
TOKIO, Japan, Aug. 28.—The Japanese government is encouraging the opening of steamer lines to New York through the Panama canal. A bill of subsidies for such steamship line will be presented at the coming session of the Diet. It is reported today that Nippon Yusen Kaisha will run six large steamers in such sea route if the government gives subsidies to that company.

GOVERN CHILD'S BEHAVIOR BY COLORS, SAYS SCIENTIST

CLEVELAND.—If your little girl tells a fib or hops the ice wagon, buy her a pale blue pinafore. If your small boy discovers and has to be taken out to the woodshed regularly, have his bedroom papered a sky blue. If you want to do some hard mental concentration hang a yellow curtain across the window. This is the advice of the Rev. J. F. Grumbine, of the Psycho-Science Church here. "Clear red makes folks affectionate and dark red makes them emotional," Doctor Grumbine stated. "White makes folks feel spiritual and pure. Every color has its effect on the human mind."

ORDER INVESTIGATION OF MAGAZINE EXPLOSION

(Special Cable to Hawaii Hocho)
TOKIO, Japan, Aug. 28.—Lieut. Gen. G. Shiba, commander in chief of the 12th Division, has ordered a strict investigation of the explosion of the powder magazine at the fortress of Bakan, which took place early this morning. Lieut. Gen. K. Shigemori of the Bakan fortress, with Staff Officer Y. J. Ichiki and Capt. Kawakami are appointed a board of investigation.

POST-WAR POLICIES

LONDON, Eng.—Sweeping resolutions aimed at meeting the problem of reconstruction after the war will be submitted to the Trades Union Congress next month, says the Pall Mall Gazette. They will call for a compulsory trade union membership, a compulsory 48-hour week for all trades, a minimum wage of 30 shillings for all adult workers and a state unemployment wage system for every one.

To meet the cost of the war the following proposals are advanced: A heavier graduated taxation on large incomes; a special tax on land values and increase of duties on the states; a graduated taxation on capital; the nationalization of railways, mines, shipping, banking and insurance and the conscription of wealth.

DULLNESS AND UNCERTAINTY IN SUGAR SEEN

Mid-August Conditions in New York Market Not Very Satisfactory

(Special Correspondence Nevess & Callaghan, 99 Wall Street.)

NEW YORK, N. Y., Aug. 18.—A dull and uncertain market has prevailed again this week, the limited transactions reported showing some irregularity in prices as compared with those ruling at the close of last week, inasmuch as sales of Cubas have established 11c advance in quotations, while sales of Porto Ricos show a decline of 27c under previous sales of these sugars made last week. Following a sale made at the close of last week of one small parcel of Cubas from store at 5.64c, basis 96 degrees duty paid, establishing a decline of .13c, further moderate offerings of Cubas appeared at this basis from store and at 4 1/2c basis 96 degrees c. & f. in nearby positions without finding buyers. Some recovery in the option market and the weekly cable from Cuba on Monday reporting extremely light exports, 16,000 tons, to U. S. Atlantic ports, and which was interpreted as a bullish factor, caused holders to immediately advance their ideas and an operator paid 5.75c basis 96 degrees duty paid in order to secure 8000 bags of Cubas from store for use in an option transaction. Although further moderate offerings of Cubas in port, afloat and for shipment were in evidence at the time at 4 1/2c basis 96 degrees c. & f., sales could not be effected at this basis, as refiners were practically withdrawn from the market and operators were not disposed to bid over 4 1/2c basis 96 degrees c. & f. for further parcels of Cubas. Notwithstanding this condition, holders of unshipped Cubas appeared to be very confident and remained firm in their asking price of 4 1/2c basis 96 degrees c. & f. for August and early September shipment. Their confidence was not shaken until refiners succeeded in obtaining at 5.50c basis 96 degrees c. i. f. about 3000 tons of Philippines and Porto Ricos arrived and about due, that were being pressed for sale, and a few odd parcels of full duty-paying sugars in port at 4 1/2c basis 96 degrees c. & f. Following these sales some Cuba holders began to weaken below the 4 1/2c asking price and limited quantities of Cubas in nearby positions were unsuccessfully offered at 4 1/2c basis 96 degrees c. & f. The market closes dull with refiners bidding only 4 1/2c—96 degrees c. & f. for Cubas.

The weekly cable from Cuba on August 14 reported five centrals still grinding and receipts of 6400 tons. Total exports amounted to 25,000 tons, of which only about 16,000 tons were destined for U. S. Atlantic ports. It is estimated that the shipments in the same direction next week will not exceed 8000 to 10,000 tons, and should this prove to be the case the deficiency in receipts as compared to meetings here will make large inroads in refiners' light stocks. Today five centrals are in operation and the weather is reported as favorable for the growing crop.

Early in the week B. H. Howell, Son & Co. reduced prices on granulated from 7.25c to 7c less 2 per cent, which cut was promptly met by the American S. R. Company and Arbuckle Bros. The Federal and Warner S. R. companies remained unchanged at 7.25c, less 2 per cent. The reduction to the 7c basis less 2 per cent failed to stimulate any important buying as the trade is understood to be fairly shaken by the unsettled developments in the raw situation.

Trading in options during the week reached an aggregate of 50,350 tons and closing quotations today are: September 4.70c@4.72c, October 4.65c@4.66c, December 4.45c@4.47c, January 4.17c@4.19c, March 4.01c@4.02c, May 4.00c@4.12c.

CHOLERA SPREADS IN JAPAN: 20 DISTRICTS REPORT DREAD DISEASE

(Special Cable to Nippon Jiji)
TOKIO, Japan, Aug. 28.—Cholera has spread throughout 20 prefectures in Japan, and new cases are reported in Tokyo, Osaka and Kyoto. The cholera district at present covers nearly half the territory of the empire and many deaths have been reported to the health authorities. Every effort is being made to prevent the spread of the disease.

Light Weight Is Uncommon, Report Shows

Family scales varying, to the seller's advantage, as much as a pound were discovered by Wallace J. Lillis in a semi-annual inspection just finished of weights and measures on Oahu.

Generally, Lillis found the island scales fairly accurate and he credits most inaccuracies more to defective mechanism than to wilful cheating.

One scale confiscated by Lillis indicates two pounds on its dial when a one-pound weight is placed upon it.

"You can imagine how fast a merchant would get rich selling by the pound on that one," laughed Lillis.

The weights and measures inspector says that the cheaper scales such as this one often lose tension in the controlling spring and cannot hold up to the marks intended.

The 12,000 Pennsylvania guardsmen doing border duty will not be deprived of their right to vote at the presidential election next November, according to a statement by Attorney General Francis S. Brown.
